

# **Bousquet** Organic **Merlot** 2021

# **Background:**

Domaine Bousquet's premium varietal series comprises a blend of estate and purchased organic fruit from the Uco Vallev in the high Andean foothills. The grapes benefit from major day/night temperature swings, achieving exuberant ripeness while retaining the juiciness that invites a second glass. The wines are vinified with a French sensibility. The wines are un-oaked – an on-trend sensibility of little or no oak to let the fruit shine through and make the wines extremely food-friendly.

Soil:

Gravel and sandy soil

### Vinevards:

Our vineyards are in the Uco Valley at the foot of the Andes at 4,000 ft /1.200 mts altitude. Thanks to the dryness of the area and its phylloxera-resistant sandy soil, farming organically at Domaine Bousquet from day one was both possible and smart. The three main factors differentiating this virgin vineyard and its terroir are: the near constant breezes from the Andes to the west which help mitigate heat-stress in this desert-like climate, with its huge day/night temperature differentials, the sandy soils result in low fertility for desirable vine stress and yet are permeable for good drainage. The prevalence of groundwater, with rainfall averaging a scant 8-inches / 20 cm or less per year, from Andes snowmelt is vital to irrigate the vines drop-by-drop. In addition to the unique terroir- roots of organically-grown plants penetrate deeper, absorbing trace minerals that give wines their authentic local taste. Organic farming is healthier for the environment and, vitally, for the people who tend the vines.

## Winemaking:

The grapes are harvested during the last week of January until the beginning of April. Fermentation with selected yeasts at an average temperature of 26°C / 78.8°F for 10 days.

## **Technical Data:**

Varietal: 100% Merlot Alcohol: 14% Acidity-Ph: 5.12/3.67 Residual Sugar: 1.55
